## EDUCATION

### MCA
NMAM Institute of Technology,

*2018 - 2021*                                                    *Udupi*

*Courses*
- Computer Application

### BSc
Mahatma Gandhi Memorial College

*2015 - 2018*                                                    *Udupi*

*Courses*
- Mathematics
- Computer Science
- Physics

## WORK EXPERIENCE

### Data Anaylst Intern
Prasanna Technology

*2021*                                                    *Mangalore*

*Achievements/Tasks*
- A highlight of my internship was developing dashboards using Power BI. I collaborated with teams to design and implement visualizations, enhancing my skills in data storytelling and presentation.

### Software Engineer
Celstream Technology

*2021 - Present*                                                    *Bangalore*

*Achievements/Tasks*
- I am currently working on Capture Pro Software. This product provides batch scanning automation and intelligence to quickly and accurately convert large volumes of paper documents into high-quality images that any business can use
- Addressed and resolved customer-related issues promptly and effectively,ensuring high levels of satisfaction and retention

## SKILLS

SQL    Python    Excel    PowerBI    WPF

## PERSONAL PROJECTS

Power BI-Sales Dashboard
- Incorporated data analysis techniques, specializing in time series analysis, to deliver valuable insights, accurate sales forecasting, and interactive dashboard creation, driving business success.

Power BI-Healthcare Dashboard
- This project goal is to track current status of patient waiting list and analyze historical monthly trend of waiting list in inpatient and outpatient categories and detailed speciality level and age profile analysis
